- Any vehicle left in the work area after 7AM on the scheduled work day WILL be towed at owners expense. NO EXCEPTIONS
- Vehicles may not re-enter the work area until cones are removed by PAVING CONTRACTOR.

If you plan to operate your vehicle during the scheduled construction, please find parking outside the work area in a legal parking spot the night before the project to avoid getting towed. If any vehicles drive into the work area before project cones are removed, they will be held financially responsible for any needed repairs to the community streets.

Large equipment and trucks will be entering and exiting the community. Please drive slowly and use extra caution during the scheduled project.

For questions or concerns, please contact the HOA manager.

Thank you for your cooperation and understanding.
